

# Foaming Bath Butter Sugar Scrub

---

You will need:

- Crafters Choice Foaming Bath Whip OR
- DIY Foaming Bath Butter (Recipe on Etsy)
- Sugar
- Essential oils or fragrance oils (be sure that your fragrance oils are free of synthetic ingredients).
- Jars-I recommend using plastic PET jars, for using safely in the shower or bath.

1. Thoroughly mix contents of bucket before removing desired amount for recipe.
2. Weigh out the desired amount in a mixing bowl large enough to add the amount of sugar. The ratio is 100% bath butter to 100% sugar (some of the sugar will dissolve).
3. Add 3% fragrance and water based color or mica as desired.
4. Whip with mixer for 5-10 minutes.
5. Package and label as desired.
